Mr. Gary Baughman
Hazardous Waste Facilities Unit Leader
Colorado Department of Health
4210 East 11th Avenue
Denver, Colorado 80220

Gentlemen:

Please find enclosed two copies of the Draft Final Phase I RFI/RI Work Plan for OU 8 (700 Area), Rocky Flats Plant, dated May 1992. This work plan is a primary document with an IAG deliverable date of May 1, 1992.

Due to delays caused by procurement difficulties experienced by EG&G, this document has several deficiencies which will be corrected prior to the transmittal of the Final Work Plan on September 28, 1992. These deficiencies include the following:

- 1) Sections 2.0 and 7.0 lack individual IHSS maps,
- 2) The collection, evaluation and summary of existing data has not been completed, and
- 3) A specific Field Sampling Plan for Stage 1 of the Phase I RFI/RI has not been prepared due to item 2) above. Thus, this document contains the framework for the planned staged approach in the Phase I RFI/RI using technical memoranda.

In order to correct these deficiencies prior to transmitting the Final Phase I RFI/RI Work Plan, we will schedule additional scoping meetings with your staff during the months of June, July and August 1992.

Questions or concerns regarding this transmittal letter and the enclosed work plan should be directed to Bruce Thatcher of my staff at 966-3532.

Sincerely,

James K. Hartman
Assistant Manager
for Environmental Management

M. Hestmark & G. Baughman
